MICRO LAYERING KIT

MICRO-LAYERING SOLUTIONS

SlimPad Micro

Smile Line is proud to introduce SlimPad Micro, an idea of **MDT Thomas Stefan Sing** in Bogenhausen (GER): it consists of a mini mixing tray for ceramics that can be used as much with modern materials for the micro-layering technique, for stains, or even as a traditional mixing tray for a single patient's case. Very compact, lid equipped with magnets, anti-slip rubber feet, can be used with or without the PVA-strips for keeping the moisture.

DIMENSIONS
147 X 72MM

TO BE USED
WITH OR WITHOUT
PVA STRIP

N.era Brushes INTENSO-1 and -4

The mythic N.era brushes redeveloped and specially adapted for micro-layering of modern materials on monolithic - a hot recommendation of **MDT Enrico Ferrarelli** in Rome (IT). These amazing new brushes are unique and provide at the same time a high resilience (a must for high-viscosity and honeylike masses) and a hyper-sharp and stable tip. Your best tools for extreme precision and working comfort - xx-long life guaranteed !

Description

Item N°

1	MICRO-LAYER BASIC SET 1 SlimPad Micro each, black & white 1 N.era brushes each, INTENSO-1 & -4	#16010
2	SET OF 3 SLIMPAD MICRO, BLACK	#16200
